# Wellington.

From Wellington Mail. Quite a number of the K. of P. lodge will go to Arkansas City this evening. where the home team will exemplify the work before the Arkansas City lodge.

Quite a mishap occurred at the Christian church Sunday night. During the services the step at the west doorway of the church gave way and precipitated the boys who were standing upon them rather unceremoniously upon the ground. The congregation was compelled at the close of the service to pass out of the church at the east entrance. The old steps are being replaced by a new set.

There is an evident confession of facts in reference to the G. A. R. honors enjoyed by W. A. McDonald in the past and Rev. B. F. Pugh at present. The fact is that Rev. Pugh is the first Wellington man to be elected to a G. A. R. department office, Mr. McDonald held the office of judge advocate general, but this is an appointive and not an elective office He was appointed by Department Commander Stewart of Wichita and held the office one year. Other Wellington men have held appointive offices; both A. B. inspectors But Rev. Pugh is still entitled to the honor of being the first Wellington man to hold an office by the direct suffrages of the delegates to an annual encampment.

Tem King, the drayman, and the billposter for Walter L. Main's circus had quite a set-to last evening. The bill poster hired Tom to haul his paste and job was done Tom asked for his pay. The bill poster informed Tom that he street, and G. Gehring's drug store, north would have to wait until the "boss" came east corner Topeka and Douglas avenues. up from Caldwell. Tom waited, but when the "boss" appeared he said the bill poster had never been authorized to go to any such expense. So a pretense of a search was made for the suddenly missing bill poster without avail. It was almost train time and both circus men were going to Winfield; so Tom called upon Marshal Grinstead for some assistance, and the "boss" soon found the bill poster in his car, where he had doubtless been all the time. Between them they made up the deficit and went on their way somewhat poorer and disgruntled.

### Winfield From Winfield Courier.

A laughable runaway occurred this morning on Main street, but it might have terminated seriously. Tony the showman and his little pony, which he called "Bryan" in the campaign, were out exercising, and Bryan got gay. He land, Ore, chased down Main street, and in front of Winfield & Miller's ran into a buggy belonging to Mr. Cogswell, injuring one wheel of the buggy badly. Tony, pony and buckboard all stopped under the buggy in a heap, but none of them were

This is a matter which deserves the attention of every farmer in this country. There is perhaps not a quarter section of land in Cowley county so situated that one or more of these lakes could not be constructed. The effect concerted action of the kind would have on the climate would unquestionably be beneficial, and the cost would be practically nothing, as It could be done when the men and teams were otherwise idle.

SMALL NET DECLINE.

nimation in the Share Trause Lacking and There Are Seesess of Post tive Dalloces, With Which the Ex Have Something to Do - Gold Expor-Movement Is Under Way Though Season of Exporting Is Expected to Bring It Soon Back Again.

New York, April 28.-The market for stocks was lacking in animation today and sank at times into a condition of unqualiled duliness, although evidences of firmess and strength were not lacking and the small net declines was due rather to the sympathetic effect of the manipulation by the bears of special stocks than to anything in the general situation.

Perhaps the duliness was in smoe small part due to the inauguration of the gold export movement today, first generally adsitted to be due to normal causes. Interest in the gold movement was confined in very large part to those having to do with market for exchange, as it is now generally understood that the gold move-ment has been held back, for several days at least, by agreement of the exchange houses, which agreement it was found impossible to maintain after the engagement on Saturday of about \$1,000,000 for shipment to London on an order from that center There was little apprehension aroused in Wall street, however, by the news that \$1,500,000 in gold coin had been withdrawn from the sub-treasury for export to Europe. For one thing, it is felt that the present period of excessive imports of merchandise, which is now throwing the ex-change situation against us, will necessarily be limited by the enactment into the law of the new customs tariff. The return of the gold that may go out now is therefore confidently expected with the normal merwich yesterday calling on some old chandise export movement later. Further-friends and attending to some business more, it is believed that, besides the large treasury gold reserve, a portion of the large eserve of New York banks would be forth coming for export purposes rather than that they should have their stock of legal tenders depleted. The extent of the demand here growing out of the demand of Japan and Austria on London is somewhat problematical. But no apprehension nanifest in Wall street that the gold exports will be sufficient to deplete the treas-ury reserve to a point that would give

The market for Americans in London was weak this morning in the face of an alvancing tendency for consols, and the New York market took its opening tone from London. But after the opening loss the general market advanced to a point a fraction higher than Monday's close. The bears then sought successfully to stem the advance by attacks on individual stocks. Those selected for attack and the declines effected in them were: Chicago Gas, 115 per cent; Western Union, 115; New Jersey Tennesse Coal and Iron, 1%; closing at the lowest; Leather preferred, 1%, and Omaha 114. The net declines in there were, however, only fractional, except in New Jersey Central, 14, and Western Union, 14. NEW YORK.

New York, April 3.—Wheat prices took a bad tumble today. On early steadiness the crowd loaded up freely, notwithstanding a strong buil movement. Subsequent events not meeting their approval, wheat that was bought was east overbeard boilty, demoralizing the market completely. July sold from 7%c, the highest morning figure, to 75%c, and closed at 76%c, which was 2%c below Monday's last price. The west led in the selling movement. Home crop news is now the leading factor. It was bearish today. CATTLE. Cattle-Steady. REPRESENTATIVE SALES.
